

Tharani P S

Tamil Nadu, India | 7200939492 | pstharani.2004@gmail.com | linkedin.com/in/tharani-p-s | github.com/Tharani-ux

OBJECTIVE

Motivated final-year B.E. Computer Science Engineering student with a strong foundation in Backend Development, Networking and IoT. Skilled in full-stack application development, mainly MERN stack and deployment(IIS). Passionate about working in innovation-led, venture-driven teams, with a goal to contribute to secure and scalable infrastructures in fast-paced tech environments.

TECHNICAL SKILLS

Programming & Development: Python, C, React, Node, HTML/CSS, MariaDB, SQL, GitHub, Socket Programming, Flask, FastAPI, API Testing.

Tools: IIS, Hostinger, Windows server, MySQL Workbench, Wireshark, FortiOS, Kali Linux, Packet Tracer, GNS3 (Beginner).

Networking: OSI, TCP/IP, Subnetting, VLANs, Cisco IOS, Packet Tracer, VOIP, Static/Dynamic Routing, Cisco Switches, FortiGate Firewalls (Basic Config).

Business & Venture: R&D, Competitor Analysis, Market Research, Innovation Strategy.

EXPERIENCE

- KC Cottrell ERP Portal** | *React, Node.js, MariaDB, IIS* kc-cottrell.in | Nov 2025 – Present
- Architected and deployed a full-stack ERP solution for **KC Cottrell India** to digitize employee management and automate income tax workflows.
 - Developed a high-performance backend using **Node.js (Express)** and **MariaDB**, implementing secure REST APIs for payroll processing and tax calculations.
 - Built a responsive frontend with **React (Vite)**, enabling employees to submit tax proofs and view salary slips via a verified user dashboard.
 - Configured a hybrid production environment, hosting the frontend on **Hostinger** and the secured backend on an on-premise **Windows Server (IIS)**.

INTERNSHIPS

- GNSS Summer Internship - IITTNiF** June 2025
On-site Internship
- Analyzed dual-frequency GNSS data to model Total Electron Content (TEC) variations.
 - Developed ML models for TEC prediction and deployed via Flask/FastAPI APIs.
 - Built interactive dashboards for ionospheric forecasting and navigation.
- Cisco AICTE Virtual Internship** May 2024
Remote
- Configured routers, switches, VLANs, and network security under real-world scenarios.
 - Enhanced troubleshooting, segmentation, and optimization skills with Cisco technologies.

PROJECTS

- Automated Emergency Response System via Satellite (AERSVS)** | *IoT, Flask, FastAPI* May 2024
- Developed a patented IoT-based emergency alert system leveraging satellite communication to automatically detect and report accidents.
 - Integrated MEMS sensors and microcontrollers for real-time monitoring and manual SOS activation.
 - Built local and central servers using Flask and FastAPI to process and route alerts to authorities.
- Real-Time Network Configuration using FortiGate Firewall** | *FortiOS, Network Security* Sep 2024
- Configured LAN interfaces, static routing, and access control using FortiGate.
 - Demonstrated traffic monitoring and enterprise-grade segmentation via FortiOS.
- Disability Support Matching Platform** | *React, Node, Python* Feb 2025
- Developed a real-time web platform connecting disabled individuals with scribes.
 - Implemented a matching algorithm based on user needs and availability.

CERTIFICATIONS

Cisco AICTE Virtual Internship (May 2024)

Introduction to Packet Tracer – Cisco Networking Academy (May 2024)

Networking Essentials – Cisco Networking Academy (Jun 2024)

ACHIEVEMENTS

Secured **3rd prize** at Hack'o'holic-0.5 national hackathon for an innovative tech startup idea.

Recognized by **DPIIT & StartupTN**, received a Tamil Nadu government Startup Card.

Won **1st prize** at REVOTRONICS'25 (REC College) for IoT innovation.

Finalist at Startup Café (Anna University) – prototype funding up to 6 Lakhs.

Won **2nd prize** at Networking Hackathon, showcasing Cisco networking skills.

LEADERSHIP & MEMBERSHIP

Alumni Meet Coordinator – St. Joseph's College of Engineering (2024)

Teachers' Day Coordinator – St. Joseph's College of Engineering (2023)

Student – Cisco CCNA Networking Academy PEP

Member – Coding Club, St. Joseph's College of Engineering

EDUCATION

St. Joseph's College of Engineering

Bachelor of Engineering in Computer Science Engineering

Chennai, India

CGPA: 7.57 (up to 6th Semester)
